In their science lesson, Class 1 explored the fascinating concept of floating and sinking. They investigated how different materials behave in water, discovering which objects rise to the surface and which ones drop to the bottom.

Through hands-on experiments, the young scientists learned about density, buoyancy, and how the properties of materials determine their behaviour in water.

SCIENCE

Class 2 dove into an exciting science lesson about habitats, exploring the rich worlds of rainforests and oceans.

They discovered the incredible diversity of life in these ecosystems, creating colourful posters and learning how animals uniquely adapt to their environments.

From tropical canopies to deep ocean depths, the students were fascinated by the complex and interconnected nature of these vibrant habitats.

Reader of the Week

Children at Ashdon have two additional opportunities to read to staff. This is in addition to their guided reading sessions as well as other reading opportunities in class. Ms. Winning and Mrs. Davies run these clubs on Tuesdays and Thursdays. They have so many children who want to have additional reading sessions.

Here is the reader of the week:
